专业简介:

传播学（密苏里 2+2 联合班）依托传播学专业于 2012 年设置并招生。该班和美国密苏里大学新闻学院“2+2”本科双学位联合培养项目，即第一、二学年在华工学习，第三、四学年达到相关要求后在美国罗格期大学继续完成学业。本专业师资队伍具备良好的专业素质，教学、实践经验丰富，并在视听传播、网络传播、数据新闻、新媒介素养等研究领域取得了一批有富有影响的成果。

Program Profile:

The cross and integration of the media based on digital technology is changing the overall character of mass communication from the aspects of transmission channel, communication concept, content production, business form and media system. The traditional training methods of Journalism and communication professionals have been unable to meet the needs of modern society, economy, culture and science and technology. Therefore, in 2015, according to the change of the social demand, the school of Journalism and communication made great adjustments and amendments to the department level teaching units and the corresponding teaching plan, in the dissemination of professional under the Network and new media and audio-visual communication professional.

The new direction of network and new media is a new subject. Professional composite requirements to the direction of the students with the basic knowledge of relatively broad, basic courses in basic courses for students in journalism, communication, literature, philosophy, art and other related fields of social sciences, in the professional basic course is divided into three parts: design and production of audio-visual program and other forms of digital content, audio-visual program and digital journalism planning and production, Audiovisual program reviews and network media operations, on the basis of these three directions, respectively, for students to open a number of related courses.

The direction of the training is to pay equal attention to both theory and practice, signed a large number of practice bases, students have a wide range of practical opportunities, employment prospects are very broad. The faculty members of this program have good professional qualities with rich experience in teaching and practice. They have made a number of influential research achievements in the network communication data, news, new media literacy research field.

专业特色：

本 2+2 联合班与美国密苏里大学联合培养，以新闻传播学为核心，以人文社科为基础，培养学生信息与传播技术操作技能以及视听和网络传播的专业技能，尤其强调新媒体环境下视听和网络内容生产以及基于融合媒体内容的网络运营推广和营销管理实践能力的培养，以满足社会对视听和网络传播人才的广泛需求。

Program Features:

This program is focused on journalism and communication studies on the basis of humanities and social sciences. It trains students to master practical skills in information and communication technologies as well as professional skills in audio-visual and online communication. To meet the society's large demand for audio-visual and online communication talents, it places great emphasis on the training of students' skills in the production of audio-visual and online content in a new media environment and their practical skills in online operation and promotion, marketing and management of convergent media content. Closely following industry changes, this program has strong adaptability and wide application.
